

PROCEEDINGS

DISCRETE MATHEMATICS (deadline: June 27, 2006)

The proceedings of the Conference Combinatorics 2006 will appear on a special issue of Discrete Mathematics.

As already announced, all the participants who want to submit a paper must bring two hard copies of their paper to Ischia and deliver it directly to Prof. Guglielmo Lunardon by Tuesday, June 27. The papers will be carefully refereed, according to the standards of Discrete Mathematics, and each corresponding author will be contacted for the usual referee procedure. Only after all of the submitted papers have been refereed, the authors will be invited to send the final version of their papers to Discrete Mathematics for publication.

ENDM - ELECTRONIC NOTES IN DISCRETE MATHEMATICS (deadline: July 15, 2006)

Due to the above procedure for the special issue of Discrete Mathematics, that volume is supposed to appear quite a long time after the Conference has ended. For this reason, there will also be a special volume of ENDM devoted to Combinatorics 2006 meeting, which will appear much earlier.

All the authors submitting a paper for the proceedings volume are invited to submit via email to lunardon@unina.it by July 15 a sort of extended abstract to appear on ENDM. Authors are asked to follow the publishing procedure very strictly:

all files must be in pdf format, must not exceed 8 pages and must not contain page numbers. The title page must have enough space on the top for the journal's logo. These papers will not be refereed and there will be no proofreading. More info are available on

http://www.elsevier.com/wps/find/journaldescription.cws_home/681020/description.

Each paper must be supplied with a set of metadata (to be added in the email message submitting the pdf file)

Number of Pages of PDF:

Publishers will provide consecutive page numbering for all papers, incorporate journal's logo and running head (which will include page numbers) into the pdf files and publish the papers on the web.

Publishers will contact the authors for copyright transfer. Let us observe that signing a copyright form should not be a problem for the authors, since (we quote from the publisher's website) "the publication of an abstract or extended abstract in this journal will NOT restrict the author(s) from publishing a full-length article on the same topic and with the same title in another journal (possibly with another publisher) provided that the original publication is sufficiently enhanced (i.e. approximately doubled in size). However, a simple copyright form must be signed for the (extended) abstract in order for it to be posted on ScienceDirect".
